PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket no. 411.—In re Loftin & Beasley, Nashville, Tenn., v. H. M. Ball, Baltimore, Md. On May 10, 1932, Loftin & Beasley complained to the Department of Agriculture relative to three cars of cattle shipped to respondent at Baltimore on February 15, 1932, asking that this matter be investigated. Complainants alleged that respondent had refused to account properly for the proceeds of the above-mentioned cattle, which they claimed constituted a violation of the Packers and Stockyards Act. They asked that if a satisfactory settlement could not be arranged a hearing be held. This complaint was served on respondent on January 27, 1933. In a letter to the Secretary dated February 2, 1933, respondent denied, in substance, the allegations of the complainants. A hearing was held in Baltimore on April 18 and 19, 1933, at which time both complaints and respondent were represented by counsel. From the evidence and facts presented in the case, it was found that complainants are not entitled to an award of reparation; therefore, on July 28, 1934, the Secretary issued an order denying reparation.

Docket no. 442.—In re the Cleveland Union Stock Yards Co., Cleveland, Ohio. In response to complaints that the rates and charges of the respondent were unreasonable, the Secretary of Agriculture issued on April 10, 1934, an order of inquiry, under the Packers and Stockyards Act, 1921, into the lawfulness of the rates and charges and directed that a hearing be held beginning on June 11, 1934. In preparation for such hearing, a preliminary investigation was begun. On May 28, 1934, the beginning date of the hearing was continued to July 30, 1934, in order that the preliminary investigation might be completed. That investigation has been completed and its results studied and analyzed. Respondent, being desirous of avoiding a hearing and the expense thereof, sought permission to file a tariff of reduced rates, which request was granted and its tariff accepted in lieu of a hearing and further investigation. Therefore, on July 18, 1934, respondent was ordered to cease and desist from demanding or collecting for yardage, hay, or corn, the rate or rates shown in its schedule of rates and charges filed with the Secretary to become effective May 1, 1934. It was also ordered that respondent be permitted to file, effective the first day of August 1934, a new tariff or schedule of rates and charges to remain in force and effect until the end of the calendar year 1934 and then be reexamined and, if justice and equity require, readjusted in accordance with the conditions set forth in the order.

Docket no. 443.—In re Guyton-Smith-Podesta Commission Co., market agency, Memphis, Tenn. The Acting Secretary of Agriculture on June 6, 1934, issued an inquiry alleging that respondent had violated the Packers and Stockyards Act in that it had failed to execute and maintain a reasonable bond to suitable trustees to secure the performance of its obligations incurred as a market agency. On June 20, 1934, respondent admitted the truth of the matters and things alleged and waived a hearing thereon. On July 9, 1934, respondent was suspended from registration as a market agency for a period of 6 months, with leave during said period to apply for a revocation of this suspension upon showing to the satisfaction of the Secretary that it has filed an acceptable bond, or furnished other satisfactory guaranty. Respondent was also ordered to cease and desist from doing business as a market agency without executing and maintaining a reasonable bond, or furnishing some other satisfactory guaranty.

HOG-CHOLERA-CONTROL REPORT TEMPORARILY DISCONTINUED

Owing to the fact that many of the veterinarians regularly engaged in hog-cholera-control work were detailed in June to drought-relief work, the activities of hog-cholera-control work were very limited. The monthly summary, therefore, will be discontinued until the emergency work is completed.
